

## LCG

## Monosplit

Cooling capacity 3,5 ÷ 16,0 kW  
Heating capacity 4,0 ÷ 17,0 kW

- New R32 ecological refrigerant gas.
- Wi-fi control using the relative accessory.
- 30% reduction of refrigerant gas compared with the previous range.
- 1 W of absorption in standby.
- SEER up to 7.2.

LCG\_CS / LCG\_C

LCG\_D

LCG\_F

### DESCRIPTION

The monosplit air conditioners of the LCG range are combined with:

- LCG\_D for duct type horizontal installation.
- LCG\_CS e LCG\_C (Cassette) for false ceiling installation.
- LCG\_F (Floor ceiling) wall and/or ceiling installation.

The outdoor unit features a compressor with inverter technology, an electronic valve and electric heater to ensure proper winter operation and prevent ice formation on the coil.

### TYPE OF INDOOR UNIT

#### LCG\_D indoor unit

Duct indoor unit, designed for indoor duct type horizontal installation.

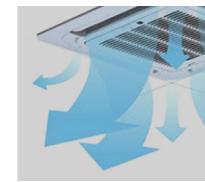

- Every indoor unit comes with a remote control and a remote control holder.
- WRC20 wired panel standard supply with each indoor unit.
- Fan with DC inverter technology.
- Regenerable air filter easy to remove and clean.
- Timer for programming switch-off and switch-on.
- 3-speed fan, to meet every possible need.
- **Auto** function for a continuous speed variation.
- **Turbo** function to attain the desired temperature as quickly as possible.
- **Sleep** night time function well-being program.
- **X-fan** prolonged ventilation function, in order to perfectly dry the coil and avoid the formation and proliferation of pathogens.
- **Anti-freeze** function that allows you to keep an inside minimum temperature of 8 °C in winter.
- **iFeel** function for activating the ambient temperature probe inside the remote control, for improved comfort.

- Equipped with condensate drain pump.

#### LCG\_CS indoor unit

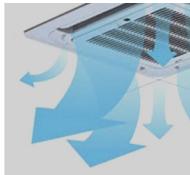

Indoor unit Cassette of dimensions (570x570 mm) designed to be installed on suspended ceiling indoors.

- Every indoor unit comes with a remote control and a remote control holder.
- Fan with DC inverter technology.
- Regenerable air filter easy to remove and clean.
- Timer for programming switch-off and switch-on.
- Auxiliary emergency command integrated into the unit.
- Indoor unit front panel with LED display and indicator lights.
- 3-speed fan, to meet every possible need.
- **Auto** function for a continuous speed variation.
- **Turbo** function to attain the desired temperature as quickly as possible.
- **Sleep** night time function well-being program.
- **X-fan** prolonged ventilation function, in order to perfectly dry the coil and avoid the formation and proliferation of pathogens.
- **Anti-freeze** function that allows you to keep an inside minimum temperature of 8 °C in winter.
- **iFeel** function for activating the ambient temperature probe inside the remote control, for improved comfort.
- Equipped with condensate drain pump.

#### LCG\_C indoor unit

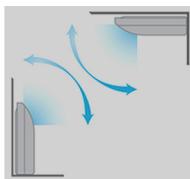

Indoor unit Cassette of dimensions (840x840 mm) designed to be installed on suspended ceiling indoors.

- Every indoor unit comes with a remote control and a remote control holder.
- Fan with DC inverter technology.
- Regenerable air filter easy to remove and clean.
- Timer for programming switch-off and switch-on.
- Auxiliary emergency command integrated into the unit.
- Indoor unit front panel with LED display and indicator lights.
- 3-speed fan, to meet every possible need.
- **Auto** function for a continuous speed variation.
- **Turbo** function to attain the desired temperature as quickly as possible.
- **Sleep** night time function well-being program.
- **X-fan** prolonged ventilation function, in order to perfectly dry the coil and avoid the formation and proliferation of pathogens.
- **Anti-freeze** function that allows you to keep an inside minimum temperature of 8 °C in winter.
- **iFeel** function for activating the ambient temperature probe inside the remote control, for improved comfort.
- Equipped with condensate drain pump.

#### LCG\_F indoor unit

Indoor unit **Floor ceiling** designed to be installed on the wall or ceiling indoors.

- Every indoor unit comes with a remote control and a remote control holder.
- Fan with DC inverter technology.
- Regenerable air filter easy to remove and clean.
- Timer for programming switch-off and switch-on.
- Auxiliary emergency command integrated into the unit.
- Indoor unit front panel with LED display and indicator lights.
- 3-speed fan, to meet every possible need.
- **Auto** function for a continuous speed variation.
- **Turbo** function to attain the desired temperature as quickly as possible.
- **Sleep** night time function well-being program.
- **X-fan** prolonged ventilation function, in order to perfectly dry the coil and avoid the formation and proliferation of pathogens.
- **Anti-freeze** function that allows you to keep an inside minimum temperature of 8 °C in winter.
- **iFeel** function for activating the ambient temperature probe inside the remote control, for improved comfort.

#### General features

- New R32 ecological refrigerant gas with low GWP.
- Operating mode: cooling, heating, dehumidification, automatic and fan only.
- Particularly quiet operation.
- Microprocessor control.
- Auto-restart function.
- Self-diagnosis function.
- Air filter easily removed and cleaned.
- Easy installation and maintenance.

#### Low cooling function

cooling operation with outdoor temperatures down to -20 °C.

#### Low heating function

heating with external temperatures up to -20 °C.

#### X-fan function

This self-cleaning system foresees that the fan of the indoor unit continues its operation for a few minutes after the unit is turned off, in order to perfectly dry the coil and avoid the formation and proliferation of pathogens.

#### Smart APP Ewpe

Using the specific **accessory**, the system offers wi-fi control thanks to the app for iOS and Android devices (available free on Apple Store and Google Play). The system can be controlled from a distance directly on your smartphone or tablet, or via Cloud with the aid of a wireless router connected to the Internet.

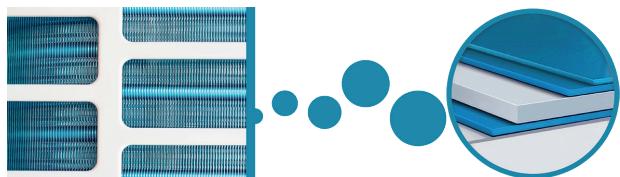

Download on the  
App Store

GET IT ON  
Google Play

#### Special blue fin coil

Unlike normal batteries, this special blue epoxy coating is able to protect the heat exchanger against rust and corrosion, in areas where the air has a high salt content.

#### TYPE OF OUTDOOR UNIT

##### Outdoor unit

Multisplit air conditioner.

Reversible air/air heat pump with DC inverter technology.

- Fitted with a electrical anti-freeze heater (in unit base) to avoid the formation of ice and encourage the drainage of condensate during heating operation.
- Compressor and fan with DC inverter technology.
- Fitted with an electronic expansion valve.

## ACCESSORIES

**CC2:** Centralised control with 7" touchscreen display for managing several indoor units within a number of multisplit systems. The centralised control has an integrated external contact. For more information, refer to the specific documentation.\*

**WRC20:** Wired panel with liquid crystal display and soft-touch buttons.

**WRC40:** Wired panel with liquid crystal display and soft-touch buttons. This accessory can be used to control not only the traditional system functions but also a weekly timer with a maximum of 8 daily time bands.

**For more information about the accessories and their functions (such as the auto-restart function), refer to the specific documentation of the single accessory.**

**DCG:** This accessory makes it possible to remotely control the main functions of the unit via the relay externally with third-party loads that are suitably powered and sized.

**ECD:** This accessory makes it possible to manage the switching on/off of the indoor units via the ON-OFF device.

**MINIMODBUS20:** Thanks to its compact size, this accessory can be easily installed inside the indoor unit. It allows the units to communicate with each other by providing a ModBus RTU serial on RS485 for supervision with external BMS.

**WIFIKIT20:** Plug & Play module to be installed in the indoor unit for Wi-Fi control.

**WIFIKIT30:** Plug & Play module to be installed in the indoor unit for Wi-Fi control.

**GLG40S:** Air supply and flow grid with dimensions (620x620 mm) for cassette internal unit.

**GLG40:** Air supply and flow grid with dimensions (950x950 mm) for cassette internal unit.

\* The CC2 centralised control can manage up to 36 LCG systems.
